JURY FIXING.

in New York.

rently innocent men walked out of the State Prison at Sing Sing yesterday, after a confinement of nearly ten years, pardoned and returned to the rights of citizenship. They were William Poole and Joseph Font, who were convicted of murder in the second degree in the Court of General Sessions in this city November 12, 1877, and were sentenced by Recorder Hackett to imprisonment for life for the supposed murder of Captain John Ryan at No. 56 Leroy street. Captain Ryan was tound at 4:30 o'clock on Sunday morning, April 29, 1877, in front of his own door-step dead, with a wound in the back of his head, which had resulted from either a blow or fall. Officer resulted from either a blow or fall. Officer Connor had seen him in an intoxicated con-

Connor had seen him in an intoxicated condition at 2 o'clock, and it was about 3 o'clock when three young fellows who bore bad reputations in the neighborhood passed along Carmine street and spoke to officer Scanlan: They were William Poole, Joseph Font and James Keenan. They had been drinking, and were ordered to disperse by the next policeman they met. The next day policeman John W. Noble, to whom they had given no end of trouble, arrested all three. They denied all knowledge of the crime, but they were all indicted on a conversation which officer Nobles swore he copied in his note-book when secreted in a cell adjoining that of Poole and Font, and principally on his evidence they were convicted. For some unknown reason Keenan was discharged. Poole and Font were confined in the Tombs Poole and Font were confined in the Tombs from November 12, 1878, to March 15, 1880, when they were transferred to Sing Sing. Font was a lame fellow of 22 years, who had been in a type foundry, while Poole was an oyster-opener, married, and 29 years NOTHING TO WARRANT THEIR CONVICTION.

In 1884, W. F. Shanks, formerly the city editor of the Tribune, while investigating the subject of "jury fixing," came across this case. He discovered that Henry Hasleton, a piano-maker of University place, and J. W. Hawley, Secretary of the United States Illuminating Company whose names and J. W. Hawley, Secretary of the United States Illuminating Company, whose names were among the convicting jury, had never been on the jury, and they made affidaylis that they had never heard of the case, and never had subpenas served upon them. Court-house loafers had answered to their names and served on the jury. Then Captain James Kennedy, of the Ninth Precinct, made a death-bed confession that officer Noble, in his best belief, had committed perjury in testifying to the facts that he did on the trial. Officer Noble, after the lapse of years, was found willing to sign an affidayit that the station-house conversation between Poole and Font could have had reference to any scrape and not neceshad reference to any scrape and not neces-sarily mean Ryan's murder; but upon con-

Relations with Hawaii.

Washington, January 2d.—Minister Carter, of the Hawaiian Islands, is daily expecting the arrival of Wm. McFarland, Hawaiian Minister of Finance, who is on his way to London to close the details of a loan of \$1,000,000 negotiated with British capitalists. Carter says that the bonds do not specifically contain a pledge of the revenues of the islands for their payment. It would be contrary to the treaty stipulations with the United States for the King to mortgage the revenues of his Government to citizens of any foreign power, and the King had no intention of doing it. Carter hopes that Congress will ratify the new treaty with the islands this year. He cites rule 10, providing that "All animals affected with contagious pleuro-pneumonia are to be slaughtered as soon after their discovery as necessary arrangements can be made," and says: "It is notorious that such affected animals were not promptly slaughtered, either in the distillery sheds, upon the Harvey farm, or in other affected herds." SPYING OUT THE LAND.

The Prosperity in Southern California and what Produced It. Dr. Latham has returned from Los Angeles, where he spent several days last week, and in response to inquiries plied concerning that portion of the State and

the prosperity there abounding, said: The southern part of this State has certainly been having a boom for a number of years, with a result of a remarkable increase in population and wealth. The ethods that bring such results are worth the attention of other sections' seeking for more capital or more people. It was with a view of studying these methods that I visited the southern part of the State. forest growth, and the encouragement of found that the accounts of the boom had ot been exaggerated. In fact, the growth of that section in population, wealth, trade and manufactures is even greater than has been represented. Los Angeles may be taken as an example

of what is being done in that region. Sixteen years ago that place was a small straggling town of 4,000 inhabitants. was half Spanish and half American. was a grazing center, and its streets were ably expected, will be those involving the filled with cowboys, sheepherders, and broncho riders. Since that year the whole of that southern section has had a steady stream of immi grants of the better class. It is now estinated that Los Angeles has 50,000 people and from a limited observation I should say that 50,000 is a moderate estimate. has become a great railroad and dis ribu ting center for all that southern country cluding Arizona and some portions of

It should be stated, however, that anybody is of the opinion that the boom" there is only a temporary one, he will soon see his mistake. There is a about as much as her health is worth to put about as much as her health is worth to put country south of the Tehacebpi range larger than the Empire State, and there are large tracts of rich, arable lands that still await the settler. That area is capable, when properly developed, of sustaining 1,000,000 people. There are many thousands of people in all the Eastern States and Territories who are anxious to escape from the terrors and oppressions of their winters, and these will come in a vastlyincreased volume for years hereatter. In my opinion the boom there will be greater

ten years hence than now.

The means used to bring about these great results are what are of the most inerest to us here in Central California. In ill instances when land has been subdivided and offered for sale water has been rought to each twenty acres, and the title to the land carried the title to the water to the land carried the title to the water in perpetuity. Wherever the new-comer settled he had neighbors settling around him and their labors helped to enhance the value of his land. In no instance has the home-seeker been invited to go on to a dry plain and put his means into land and improvements, and there starve while his vines and trees are growing to a bearing age. In many instances there the landowners have not only brought the water to owners have not only brought the water to owners have not only brought the water to the land and sold it with the land, but they have planted miles of trees along the avenues, and also built hotels, stores and other buildings, spending thousands of dollars before the a land company expended \$500,000 in ditches, buildings and other improvements before an acre was sold, and the company nade a million dollars by its enterprise In my opinion it will be necessary for the money of this portion of the State to inter est itself in putting tracts of land in proper shape for settlement before there can be any boom here. There is plenty of land here, plenty of water, and plenty of money to bring them todone before we can attract people from the southern part of the State, where all this satisfied that we must create any boom we are to have here, and it cannot be done without the lands are prepared to properly settle the people who may seem to have a settle that the people who may seem to have a settle the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who may seem to have a settle that the people who the State, with the utmost cordiality, and he heard no expressions of jealousy towards other portions of the State. Dangerous Interference with Nature. All women cannot weigh just exactly 145 ounds without half killing themselves to All women who wear corsets and frilled white petticoats are not helpless in ployed if lumber could be obtained. So great has been the increase in the populapounds are not disgraceful, shapeless masses of "undignified, baggy fat." Those to tion and trade of the San Gabriel valley that a second railroad has been built whom the term applies will doubtless do well to adopt the proffered suggestion of physical culture. With proper care both of the muscular and vital portions of their bodies they may very possibly get back their health and their "long-lost shapes." But when a woman is big and strong and healthy and as happy as she can be, it is cine or walk until she is too breathe, day after day and always. What was the result on Fanny Daven-port's constitution of her powerful will and

letermination to be thin? She was a star: she weighed about 190 pounds. Ned Price, her husband and anager, told her that what she wanted to do was to get thin. If she would do that he would ask for no new piece, no new theater. Only Fanny Davenport as she used to be! They were in London at the time. Mrs. Price went to Whistler, an American doctor resident in London, and told him what she wanted to do. He walked miles and miles every day. Three months of this stoicism brought her weight down to 165 pounds. Then she returned to America, still keeping up her discipline. Soon she weighed 160 pounds, then 155, then 150, and finally the pounds went until there were but few over 130, and there was no strength in her. Then the lamentation was all the other way. Miss Davenport found it impossible to stop wasting away. Her cheeks got thin, the hollows got deep in her shoulders, and there were ugly furners about here was nothing. rows about her eyes. There was nothing left to do but entirely reverse her ways of living and try and win back the lost strength and health. It took a long while

GENERAL NOTICES.

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. New Year's Day with Our Young Men The second annual reception tendered by the Young Men's Christian Association to

in every respect.

The Ladies' Central Committee, assisted by the officers of the Association, had made elaborate preparations to receive the young of the city. The Flower Committee, under R. Dille and Rev. Carroll M. Davis, both the direction of Miss Emma Busee, and assisted by Mrs. Alsip, had beautifully destroyed for Assistant orated the parlors, reading-room and audience room with ferns, red berries, garlands, mottoes and flags. The entrance was draped with our national colors. Everywhere woman's taste and skill were apparent. In the reception room were five tables bountifully supplied with the most tempt. bountifully supplied with the most tempting delicacies and presided over by Mrs. G. A. Stoddard, Mrs. O. P. Piper, Mrs. M. S. Billings and Mrs. Painter, assisted by a numerous corps of young ladies. Mrs. R. G. Hart and Mrs. E. B. Hussey, the President and Secretary of the Ladies' Central Committee, received the young men on their arrival in the parlors, and introduced them to the other ladies. A noticeable feature was the young men of the Reception Committee, who cordially welcomed all young men almost before they got into the building.

At noon Rev. E. R. Dille gave a very earnest and practical address to young men on "Taking Account of Stock." We noticed several prominent business men in the gudience.

Ward, and piano, John Walling, played various selections, to the great pleasure of all present. At 3 o'clock there was an athletic exhibition in the gymnasium, in which L. D. Mudgett, Herbert Wallin and Robert Palmer, of Woodland, and J. O. Hestwood and J. P. Kennedy, of the local association, and J. P. Kennedy, of the local association took part. The exercises on the horizontal bar and the club swinging were much admired. The day was closed with a fine musical and literary entertainment in the main hall, which was crowded with young men and their friends. Many were turned many day were turned many day were turned to the specific of the senting of th away for want of room. A novelty was that—with the exception of Miss Clara mbers were all given by young men, as the programme will show

President Campbell presided, and between the parts Campbell presided, and between the parts spoke of the work of the Association and invited young men to join, which he said they could do at any time. All young men of good moral character are eligible for membership. The various numbers were most cordially received, and encores were numerous. The young men were all amateurs, four being in the employ of one prominent firm in the city, and two in another. At the close, the audience united in singing "America," being led by the orchestra. After the audience dispersed those taking part in the entertainment were handsomely entertained by the ladies Over 300 young men called during the day.

Suicide in Yolo. P. G. Everett, a wealthy and prominent citizen of Yolo county, suicided at his home in Capay valley, by taking laud anum, on New Year's eve. He was found he next morning in a comatose state, from which he could not be aroused, and died about noon on Saturday. His first wife died some three or four years ago, and he shortly afterward married his step-daughter. His second marriage was not a happy one, and his domestic troubles led him to attempt suicide at the Byrns Hotel, Woodland, in May last. As on Friday, he took an overdose of laudanum, but his life was saved on that occasion by the vigorous use of a stomach pump. Mr. Everett owned a large and valuable farm in Capay valley, some twenty-five miles west of Woodland besides other real and personal property. He was a gentleman who stood high in social circles, and was prominent in several fraternal societies. He leaves two grown sons. The Coroner went out to his place Saturday evening to hold an inquest. He

was about 65 years of age. Military Shots.

County License Collector Dolor. county and city officers recently elected enter upon the duties of the positions to licenses last month to the amount of \$1,861 50. During the year ending Decem-

ber 31st he issued 3,075 receipts, and collected \$28,789 50. The Placer Herald says: "There is strong the Assembly at the last session.

For Chief Clerk of the Assembly there are several aspirants, but the contest seems success, and as a local move it would no doubt be of great benefit to the county." Sumner Relief Corps, at its last meeting, adopted a series of resolutions returning thanks to Sumner and Warren Posts, G. A. R., to the press of the city, and to Revs. Dille, Herrick and Ware for courtesies ex-

tended and services rendered. The Galt Gazette says: "A beautiful brange tree, full of fruit, in the yard of John Brewster, attracts much attention. Near by it is a large palm tree. We would like the editor of the Los Angeles Express to visit this section and then stop lying about Northern California."

Officer Farrell went to San Francisco Saturday and brought back Wm. Stone, who was arrested there on a dispatch from this city accusing him of attempting to defraud creditors by leaving the State. It is said that he was about to leave for the East with a female companion when arrested.

Mary Johnson, "the terror from Denver," was released from the County Jail Saturday morning on the completion of her term for disturbing the peace, and before many hours she was howling drunk and making herself so very objectionable that officers Farrell and Cafferty escorted her to the lock-up.

The following arrests were made since last report: Fred Hughes, by special officer Jackson, for petit larceny; William Stafford, by officer Farrell, for attempting to defraud creditors; Mary Johnson, by officers Farrell and Cafferty, for disturbing the peace; John Norton, by officer Coffey, for receiving stalen property: F. Schoot. for receiving stolen property; F. Schoon-maker, by officer Yager, for disturbing the peace; Daniel Costello and wife, by officers McCormack and Sullivan, for battery.

Bradley & Russell had 500 dramatic spectacle, "The Ratcatcher, or the Pied Piper of Hamlin," on the stage of the California Theater, and Sacramentans who saw the production at that establishment have indorsed it so highly, that without doubt the Metropolitan Theater will be crowded this evening to witness its first presentation in this city. The title role is played by Herbert Wilke, who fits the character admirably, acts with great spirit, and sings in splendid voice and with reand sings in splendid voice and with re-markable expression. The management propose to bring the entire regular company of fifty-three people to Sacramento, and also several of the auxiliaries that have been playing at the California, who, added to those engaged in this city, will make a total of over 125 persons engaged in the presentation of the play here. The charming ballets, led by the distinguished premiers, M'lles. Vivian, Tagliani and Copelini, will be given in their entirety, with the strikingly beautiful tableaux with which they conclude. Between the acts there will be some very attractive feats of balancing and sleight-of-hand by Mons. Ballac, and grace-

ful acrobatics by the Moxen Family. Aimee, the sparkling and vivacious little French vocalist and comedienne, is announced to appear at the Clunie Opera House next Friday and Saturday evenings and at a matinee on Saturday, presenting on Friday and at the matinee Jessup & Gill's farcical comedy, "Mam'zelle," and on Saturday evening Sardou's comedy of "Divorcons." In the former she sings "Creep Into My Bed, My Baby," "Chicken Pie," "Pretty as a Picture," etc., and sings them in a manner colling for encore after them in a manner calling for encore after encore. The New York Graphic says of encore. The New York Graphic says of her reappearance in that city not long since: "Mlle. Marie Aimee lasts well in more senses of the word than one. She keeps her freshness, her youth, and above all, the favor of the public. Her sweet broken accept is a little less broken now than it used to be, but it proves very fetching all the same when coupled with that dreadful little leer with which she paints a particu-larly audacious saying. Of course she sang 'Pretty as a Picture,' but it did not get its full value from being combined with the usual startling interruptions that make the 'catch of the piece.' 'Chicken Pie' was the hit among her songs. She looked as pretty as a picture when she sang that, and she sang it with a vim and a certain tasty slice' coveted by more than one watering

Baseball.

A number of Sacramentans went to the Bay Saturday to witness the baseball games which the Louisvilles were to play with clubs of the California League. The Pioneer Club, with Morris and Carroll as its battery, and also playing Brown, Fogarty, Sweeney, Taylor, Gagus, etc., "tackled' the blue-grass boys on Saturday at Alameda, and were the recipients of a grand "whitewash," their opponents securing four runs to the Pioneers' cipher. The runs were made in the first and second innings, after which neither side scored. The Pioneers thus showed their ability to hold the Kentuckians down, after getting well

years ago. At that time the part of the mine in which the fire occurred was sealed up by the means of bulkheads. A drift now shows that the fire is still alive. The old timbers have been slowly charring, and in places where covered with a great weight of rocks, and earth they have been years, should we be incredulous on being assured by men of science that the center of the earth, once a molten mass of rock, still remains in a molten state after untold ages? How many years the small bunch of fire in the California will still remain dive it is impossible to say. The secret of ts long life appears to be that it is so secarely inclosed that loss of heat is pre-rented. In this may be found a hint for vented. In this may be found a hint for the manufacture of heating apparatus. The fire is in an abandoned part of the mine where it can do no harm, as it is hermet-ically sealed in all directions. The drift that cut into it has been securely closed, and it will probably be allowed to smolder

Too CLEAN FOR COMFORT .- An old lady of my acquaintance was a great woman to scrub and scour and brush and polish and clean from morning until night. When asked why she went to such extremes in asked why she went to such extremes in these directions she always said: "Because I like to have things half decent." I think that too many housewives have this same idea of "decency." I would hate to be the husband of a woman who was thus "decent" at the expense of the happiness and comfort of the whole household. Men hate cleaning days when they come bu, once a work and when every day and every hour cleaning days when they come bu, once a week, and when every day and every hour is given up to a spirited warfare against possible specks of dirt, men are not apt to find home the sweetest spot on earth. This is not written in vindication of the great army of the unclean, and they needn't think it is. I hate dirt, and I don't believe it possible for people to reach that "higher life" we all should aspire to when surrounded by the dirt and disorder of many homes. But let us have moderation in this

From a Consumptive. Lakeville, Mass., September 14, 1885.

I was very sick in 1885 with consumption had severe pain in my left side; lungs were very sore and tender; a friend told me o

Allcock's Porous Plasters. I tried one, co Allcock's Porous Plasters. I tried one, cut in strips, and placed it over the painful places; they gave me almost immediate relief. I continued the use of them, in connection with tonic medicines, until I was cured. I have used hundreds of them for myself and family. My husband was attacked about two weeks ago with a terrible pain in the right side; he could not breathe without crying out. I had one in the house. I applied it, and he received relief. He continued to wear it a day or so, when he was well again.

Free Trade. The reduction of internal revenue and the taking off of revenue stamps from pro-prietary medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's German Syrup, as the reduction of thirty-six cents per dozen has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75giving one-fifth more medicine in the 75-cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted in every town and village in civilized countries. Sample bottles for 10 cents transpired to the same size. bottles, for 10 cents, remain the same size.

and Enfeebled condition of the Genito-Urinary Organs.

It speedily cures Impotence, Early Decay, Loss of Vigor, SEMINAL WEAKNESS, and all the sad effects of youthful follies and abuse or EXCESSES OF MATURITY.

It permanently prevents all Unnatural Loss from the system, as thousands can attest who have used the Remedy in the past quarter of a century which it has been before the public. It is indeed a wonderful remedy—toning the nerves, strengthening the muscles, checking the waste, invigorating the whole system and restoring the afficted to HEALTH and HAPPINESS.

The Doctor will agree to forfeit \$1,000 for some case undertaken not cured. The reason so many cannot get cured of Weakness and the above diseases is owing to complication called PROSTATORRHEA with Hypersthesia, which requires special treatment.

DE. Idebig's Invigorator, No 2, with our peculiar special treatment, is the only cure for Prostatoreneta. By it Manhood is restored and the hand of time moved back from age to youth.

Price of either Invigorator, \$2. Case of six bottles, \$10. Sent to any address, covered and properly from observation. Price of either Invigorator, 32. Case of six bottles, \$10. Sent to any address, covered sourcely from observation.

Dr. Liebig & Co. treat successfully by Homeopathy every form of SPECIAL, PRIVATB or CHRONIC DISEASE without mercury or nan seous drugs. If vitality is drained from the body, numerous diseases follow that baffle ordinary medical treatment. Dated December 13, 1886.

W. C. VAN FLEET,

d14-td Judge of the Superior Court.

To be freed from the dangers of suffocation of the great the find home the sweetest spot on earth. This is not written in vindication of the great army of the unclean, and they needn't think it is. I hate dirt, and I don't believe it possible for people to reach that "higher life" we all should aspire to when surrounded by the dirt and disorder of many homes. But let us have moderation in this cleaning business. A man don't want to be all strains and hearing; to feel that the system does not, through its vehs and arteries, suck up to be his wife everlastingly flying around in dusting cap and long-sleeved apron dabbing at stray flies, and trying to espy infinitistimal specks of dust.—Zenas Dane in Detroit at those who have tried many remedies and physicians despairs for felled or cure.

SANORD'S RADICAL CURE meets every phase of Catarrh, from a simple head cold to the most on Lungs, and a brief trial will prove to the flood-gates of heaven, we could never agree among ourselves when to pull it.
